

Editorial of Lal Tara issue No 2

Lal Tara is mainly collection of our published documents and articles.

This is the second and last issue.

The reactionary Bangladesh government has finished money of the capitalist state bank of Bangladesh. Maximum inflation and devaluation of Taka has been made. Maximum price hike of daily goods, multiple increase of price of oil, gas and electricity made life of common people difficult. Peasants got minimum price of agricultural products. As price of fertilizer is high and because of repeated price hike of electricity and oil, they are less able to carry irrigation. Even many of the middle peasants want to mortgage their lands in exchange of a few money. But very few people in rural area have that much money. Those who have money, live in cities. By sustaining semi-feudalism in rural areas, bureaucratic bourgeoisie has built a structure of semi feudal semi colonial society with bureaucratic capitalism in its center. Workers have no real minimum wage. The wage they have by working severely hard labor in factory imprisonment that is not even one third of real family expenditure. Many of the middle class people are committing suicide by being bankrupt at the disastrous fall of share market. But exploitation and plunder by the imperialist collaborator bourgeoisie doesn't stop at this situation, rather increasing. Their capital is multiplying.

The government ministers' corruption is exposed now. By stealing the initial money of Padma Bridge project, they embarrassed imperialists too. Now, Hasina is attempting for last survival (in this project) by proposing US representative Yunus as World Bank Chief. Government carried its collaborator duty by letting India infiltrate in Bangladesh by giving her corridor in the name of transit. In exchange, Bangladesh didn't get water for Tista river. Rivers are being destroyed. Environment is being collapsed. As part of handing over oil and gas mines to imperialist companies, government embraced Russian imperialist company Gazprom. US, Europe, China, Japan, Saudi Arabia, India and Russia are the imperialist and expansionist forces who are exploiting us. The agreement to build atomic power plant with Russia is nothing but conspiracy to destroy environment.

Lots of students and masses of people have been murdered, injured and crippled by RAB and Police "crossfire" and beating.

Lots of masses of people including children have been murdered, injured and crippled by BSF (Border Security Force of India) crossfire and beating.

The Arab nations and people have risen up. But by taking this opportunity, US and its European colleagues have invaded Libya. After Iraq and Afghanistan, they have expanded their claw to Syria and Iran. Already they have infiltrated in Pakistan, disturbed the life of people there and are killing a lot of people including children and women in drone attack.

Contradiction is sharpening between on the one hand US led imperialists and on the other China and Russian led imperialists.

People's wars are developing in India, Peru and Philippines by crossing various difficulties.

It is very significant that with a future aim of building a Maoist international center we along with Maoist parties of Peru, Colombia, Argentina, Ecuador, Panama, France, Spain and Arab have expressed our strong position against revisionism and centrism.

The responsibility Maoist Unity Group took to carry reconstruction in communist movement in our country has been fulfilled one way or another. Preliminary works have been done in different regions. Apart from reconstruction of different mass organizations, new mass organization has been created. These are preliminary works based upon which new party organization will develop what will conceive 21st century reality and developed MLM, what of course will be a succession of Chairman Siraj Sikder and Proletarian Party of East Bengal, but will completely abandon wrong succession of the middle period. Today, this is the time to newly construct everything, of course, with a higher basis!
